## TALENTS

- I have the talent of learning new skills and like to learn.
- I am inventive – full of ideas which I try to follow.
- Fix it - e.g. when I find a bug in an application I try to fix it.
- I think holistic – everything affects on everything else.
- When I participate in meetings I seek the compromise. I also think that everybody have right to their opinion, and should be heard.
- I like to work alone – like to be social but it is not important to me.
